With the funds herein appropriated, it is the intention of the Legislature that it shall be the agency's responsibility to make certain that funds required to be appropriated for "Personal Services" for Fiscal Year 2012 do not exceed Fiscal Year 2011 funds appropriated for that purpose, unless programs or positions are added to the agency's Fiscal Year 2011 budget by the Mississippi Legislature. Based on data provided by the Legislative Budget Office, the State Personnel Board shall determine and publish the projected annual cost to fully fund all appropriated positions in compliance with the provisions of this act. It shall be the responsibility of the agency head to ensure that no single personnel action increases this projected annual cost and/or the Fiscal Year 2011 appropriations for "Personal Services" when annualized, with the exception of escalated funds. If, at the time the agency takes any action to change "Personal Services," the State Personnel Board determines that the agency has taken an action which would cause the agency to exceed this projected annual cost or the Fiscal Year 2011 "Personal Services" appropriated level, when annualized, then only those actions which reduce the projected annual cost and/or the appropriation requirement will be processed by the State Personnel Board until such time as the requirements of this provision are met.

Unless otherwise authorized in this act, no state agency shall take any action to promote or otherwise award salary increases through reallocation, reclassification, realignment, educational benchmark, career ladder, equity salary adjustment, or any other means to increase salaries of employees or positions unless specifically exempted by the following conditions: the

award of teacher salary increments; the advancement of a trainee/cadet to the next level of a bona fide career ladder; the award of an educational benchmark for the attainment of a Certified Public Accountant License or higher level professional certification based on information provided to the State Personnel Board by the Legislative Budget Office; the immediate replacement of a departing employee with an employee from within state service at a salary level of the departing employee or the Fiscal Year 2011 promotional formula, whichever is less; the emergency appointment of nurses, pharmacists or other health care and child protection professionals at a salary to be determined by the State Personnel Board; or a new hire associated with the American Recovery and Reinvestment Act of 2009. All positions supported by funds available through the American Recovery and Reinvestment Act of 2009 shall be designated as time-limited positions.

Any transfers or escalations shall be made in accordance with the terms, conditions and procedures established by law or allowable under the terms set forth within this act. The State Personnel Board shall not escalate positions without written approval from the Department of Finance and Administration. The Department of Finance and Administration shall not provide written approval to escalate any funds for salaries and/or positions without proof of availability of new or additional funds above the appropriated level.

No general funds authorized to be expended herein shall be used to replace federal funds and/or other special funds which are being used for salaries authorized under the provisions of this act and which are withdrawn and no longer available.

It is further the intention of the Legislature that the agency's budget request for Fiscal Year 2012 shall be submitted to the Joint Legislative Budget Committee in a format and level of detail comparable to the format and level of detail provided during the Fiscal Year 2011 budget request process.
